

Conforms to HazCom 2012/United States

SAFETY DATA SHEET

Section 1. Identification

Product code : 10525

Product name : DIECO DIEMAKERS GREASE

: Premium Die Pin Lubricant

Other means of identification

: PART# 40-1001 (tube), #40-1002 (pail), #40-1003 (cartridge)

Relevant identified uses of the substance or mixture and uses advised against

Relevant uses : Not available.

Uses advised against : Any other purpose.

Supplier : Producto/Dieco

2980 Turner Rd Jamestown, NY 14701 (P) 800-237-1440 (F) 440-542-0250

Manufacturer : SPECIALTY LUBRICANTS CORPORATION

8300 Corporate Park Drive Macedonia, OH 44056 USA

(P): 1-800-238-5823

(F): 1-330-425-9637

Emergency telephone number (with hours of

operation)

: CHEMTREC US/Canada:1-800-424-9300

Date of issue/Date of revision : 6 July 2022 Version : 2 1/12

Section 2. Hazards identification

OSHA/HCS status

: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

Classification of the substance or mixture

: Not classified.

GHS label elements

Signal word : No signal word.

Hazard statements : No known significant effects or critical hazards.

Precautionary statements

Prevention : Not applicable. Response : Not applicable. **Storage** : Not applicable. **Disposal** : Not applicable. Hazards not otherwise : None known.

classified

Date of issue/Date of revision : 6 July 2022 Version :2 2/12 Premium Die Pin Lubricant 015297-01 B

Section 3. Composition/information on ingredients

Substance/mixture : Mixture

Ingredient name	%	CAS number
Mineral oil **	≥25 - ≤50	-
Residual oils (petroleum), solvent-dewaxed	≥25 - ≤50	64742-62-7
zinc oxide	≤10	1314-13-2
Limestone	≤5	1317-65-3

^{**} May contain : 64742-54-7, 64742-65-0

Product containing mineral oil with less than 3% DMSO extract as measured by IP 346. Any concentration shown as a range is to protect confidentiality or is due to batch variation.

Section 4. First aid measures

Description of necessary first aid measures

General advice : Get medical attention. If medical advice is needed, have product container or label at

hand. Use personal protective equipment as required. Remove contaminated clothing

and wash it before reuse. Wash skin surfaces thoroughly after contact.

Inhalation: Move affected person to fresh air. If not breathing, if breathing is irregular or if

respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.

Get medical attention.

Skin contact: Brush off loose particles from skin. Wash with plenty of soap and water. Remove

contaminated clothing and wash it before reuse.

Eye contact: Flush with plenty of water for at least 15 minutes, occasionally lifting the upper and

lower eyelids. Remove contact lenses, if present and easy to do.

Ingestion: Ingestion may cause gastrointestinal irritation and diarrhea. Do not induce vomiting

unless directed to do so by medical personnel. Never give anything by mouth to an

unconscious person.

Most important symptoms and effects, both acute and delayed

Inhalation: Not expected under normal use.Skin contact: Not expected under normal use.Eye contact: Not expected under normal use.Ingestion: Not expected under normal use.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician : Treat symptomatically.

Specific treatments : No specific treatment.

Protection of first-aiders: No action shall be taken involving any personal risk or without suitable training. It may

be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Use

personal protective equipment as required.

Date of issue/Date of revision: 6 July 2022Version: 23/12

Section 5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media

: Use an extinguishing agent suitable for the surrounding fire. Use dry chemical, CO2. water spray (fog) or foam.

Unsuitable extinguishing media

: Do not use water jet.

Specific hazards arising from the chemical

: No specific fire or explosion hazard.

Hazardous thermal decomposition products : In a fire, hazardous decomposition products may be produced. carbon oxides (CO, CO₂) nitrogen oxides sulfur oxides metal oxide/oxides

Special protective actions for fire-fighters

: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

: No action shall be taken involving any personal risk or without suitable training. Put on appropriate personal protective equipment (see Section 8). Keep unnecessary personnel away.

For emergency responders: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel".

Environmental precautions

: Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Do not allow any potentially contaminated water, including rain water, runoff from fire fighting or spills, to enter any waterway, sewer or drain.

Methods and materials for containment and cleaning up

Small spill

: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.

Large spill

: Stop leak if without risk. Move containers from spill area. For large spills, dike spilled material or otherwise contain it to ensure runoff does not reach a waterway. Absorb with an inert material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Section 7. Handling and storage

Precautions for safe handling

Protective measures

: Put on appropriate personal protective equipment (see Section 8). Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not breathe dust. Do not ingest.

Date of issue/Date of revision : 6 July 2022 Version :2

Section 7. Handling and storage

Advice on general occupational hygiene

: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, including any incompatibilities

: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Storage temperature : Storage temperature: 5 to 35°C (41 to 95°F).

Shelf life : 2 years

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

Ingredient name	Exposure limits
Mineral oil **	NIOSH REL (United States, 10/2016).
	TWA: 5 mg/m ³ 10 hours. Form: Mist
	STEL: 10 mg/m³ 15 minutes. Form: Mist
	ACGIH TLV (United States).
	STEL: 10 mg/m³ 15 minutes.

Appropriate engineering controls

: If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

Environmental exposure controls

: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. Keep equipment clean.

Eye/face protection

: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with sideshields.

Hand protection

: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Other skin protection

: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection

: A respirator is not needed under normal and intended conditions of product use. Use appropriate respiratory protection if there is a risk of exceeding any exposure limits.

Thermal hazards

: Not expected under normal use. Not relevant/applicable due to nature of the product.

Date of issue/Date of revision : 6 July 2022 Version : 2 6/12

Section 9. Physical and chemical properties

Appearance

Physical state : Solid. [grease] : Off-white. Color Odor : Characteristic. : Not available. Odor threshold Hq : Not available. : Not available. **Melting point**

Boiling point : Not available.

: Open cup: 221°C (429.8°F) [Cleveland] Flash point

: Not available. **Evaporation rate**

Flammability (solid, gas) Lower and upper explosive

(flammable) limits

: Not available. : Not applicable.

: Not available. Vapor pressure Vapor density : Not applicable.

Density : 0.95 g/cm³ [15°C (59°F)]

Solubility

Media	Result
cold water	Not soluble

Partition coefficient: n-

octanol/water

: Not applicable.

: Not applicable. **Auto-ignition temperature**

Decomposition temperature : Not available.

Particle characteristics

: Not available. Median particle size

Section 10. Stability and reactivity

Reactivity : No specific test data related to reactivity available for this product or its ingredients.

Chemical stability : The product is stable.

Possibility of hazardous

reactions

: Under normal conditions of storage and use, hazardous reactions will not occur.

Conditions to avoid : No specific measures identified.

: Strong oxidizing materials. strong acids. strong alkalis Incompatible materials

Hazardous decomposition products

: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Date of issue/Date of revision : 6 July 2022 Version :2 7/12

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity : Based on available data, the classification criteria are not met.

Acute toxicity estimates

Not available.

Numerical measures of toxicity

Not available.

Irritation/Corrosion : Based on available data, the classification criteria are not met.

Product/ingredient name	Result	Species	Score	Exposure	Observation
zinc oxide	Eyes - Mild irritant	Rabbit	-	24 hours 500	-
	Skin - Mild irritant	Rabbit	_	mg 24 hours 500	_
				mg	

Sensitization : Based on available data, the classification criteria are not met. : Based on available data, the classification criteria are not met. Mutagenicity Carcinogenicity : Based on available data, the classification criteria are not met. Reproductive toxicity : Based on available data, the classification criteria are not met.

Specific target organ toxicity (single exposure) : Based on available data, the classification criteria are not met.

Specific target organ toxicity (repeated

: Based on available data, the classification criteria are not met.

exposure)

Aspiration hazard : Based on available data, the classification criteria are not met.

Other information : None identified.

Information on the likely routes of exposure

Inhalation : No known significant effects or critical hazards. Skin contact : No known significant effects or critical hazards. Eye contact : No known significant effects or critical hazards. Ingestion : No known significant effects or critical hazards.

Delayed and immediate effects and also chronic effects from short and long term exposure

None identified.

Symptoms related to the physical, chemical and toxicological characteristics

Inhalation : Not expected under normal use. Skin contact : Not expected under normal use.

Eye contact : Not expected under normal use. Ingestion : Not expected under normal use.

Section 12. Ecological information

This material is toxic to aquatic life with long lasting effects.

Toxicity

Date of issue/Date of revision Version :2 : 6 July 2022

Section 12. Ecological information

Product/ingredient name	Result	Species	Exposure
zínc oxide	1	Algae - Skeletonema costatum Daphnia - Daphnia magna -	96 hours 48 hours
	Acute LC50 1.1 ppm Fresh water	Neonate Fish - Oncorhynchus mykiss	96 hours

Persistence and degradability

Bioaccumulative potential

Product/ingredient name	LogP _{ow}	BCF	Potential
zinc oxide	-	28960	high

Mobility in soil

Soil/water partition coefficient (K_{oc})

: Not available.

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods

: Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Empty containers or liners may retain some product residues. Empty containers retain product residue and can be hazardous. Care should be taken when handling emptied containers that have not been cleaned or rinsed out.

Section 14. Transport information				
	DOT Classification	IMDG	IATA	
UN number	Not regulated.	UN3077	UN3077	
UN proper shipping name	-	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S. (zinc oxide)	Environmentally hazardous substance, solid, n.o.s. (zinc oxide)	
Transport hazard class(es)	-	9	9	
Packing group	-	III	III	
Environmental hazards	No.	Yes.	Yes.	

Additional information

Date of issue/Date of revision: 6 July 2022Version: 29/12

Section 14. Transport information

IMDG

: This product is not regulated as a dangerous good when transported in sizes of ≤5 L or ≤5 kg, provided the packagings meet the general provisions of 4.1.1.1, 4.1.1.2 and

4.1.1.4 to 4.1.1.8.

Emergency schedules F-A, S-F

Special provisions 274, 335, 966, 967, 969

IATA

: This product is not regulated as a dangerous good when transported in sizes of ≤5 L or ≤5 kg, provided the packagings meet the general provisions of 5.0.2.4.1, 5.0.2.6.1.1 and 5.0.2.8.

Quantity limitation Passenger and Cargo Aircraft: 400 kg. Packaging instructions: 956.

Cargo Aircraft Only: 400 kg. Packaging instructions: 956. Limited Quantities -

Passenger Aircraft: 30 kg. Packaging instructions: Y956.

Special provisions A97, A158, A179, A197

Special precautions for user

: **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according to IMO instruments

: Not available.

Section 15. Regulatory information

U.S. Federal regulations

Clean Water Act (CWA) 311

Mone of the components are listed.

Clean Water Act (CWA) 307

Ingredient name	CAS number
z inc oxide	1314-13-2
zinc sulphide	1314-98-3
Naphthenic acids, zinc salts	12001-85-3

Clean Air Act Section 112(b) Hazardous Air Pollutants (HAPs)

None of the components are listed.

CERCLA: Hazardous substances.

This material, as supplied, contains one or more substances regulated as a hazardous substance under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302).

Reportable quantity

: Zínc bis(2-ethylhexanoate): No RQ is being assigned to the generic or broad class.; Naphthenic acids, zinc salts: No RQ is being assigned to the generic or broad class.; zinc oxide: No RQ is being assigned to the generic or broad class.; zinc sulphide: No RQ is being assigned to the generic or broad class.;

SARA 302/304

None of the components are listed.

SARA 311/312

Classification: See GHS Classification in section 2 for hazard class information

SARA 313

Date of issue/Date of revision: 6 July 2022Version: 210/12

Section 15. Regulatory information

	Product name	CAS number	De minimus exemptions:
Form R - Reporting requirements	P P P P P P P P P P	1314-13-2 1314-98-3	1% 1%

State regulations

Massachusetts : The following components are listed: OIL MIST, MINERAL; ZINC OXIDE FUME;

CALCIUM CARBONATE

New York : None of the components are listed.

New Jersey : The following components are listed: ZINC OXIDE; CALCIUM CARBONATE; ZINC

compounds

Pennsylvania : The following components are listed: ZINC OXIDE FUME; LIMESTONE; ZINC

COMPOUNDS

California

California Prop. 65

This product does not contain any Proposition 65 chemicals.

SCAQMD Rule 1144

This product has not been tested for VOC content by the ASTM E-1868-10 (2021) method and is not approved for sale or distribution in the SCAQM District of California if the product is used as a metal forming, metal removal, metal treating, metal protection fluid

International regulations

Montreal Protocol

Not listed.

Stockholm Convention on Persistent Organic Pollutants

Not listed.

Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.
